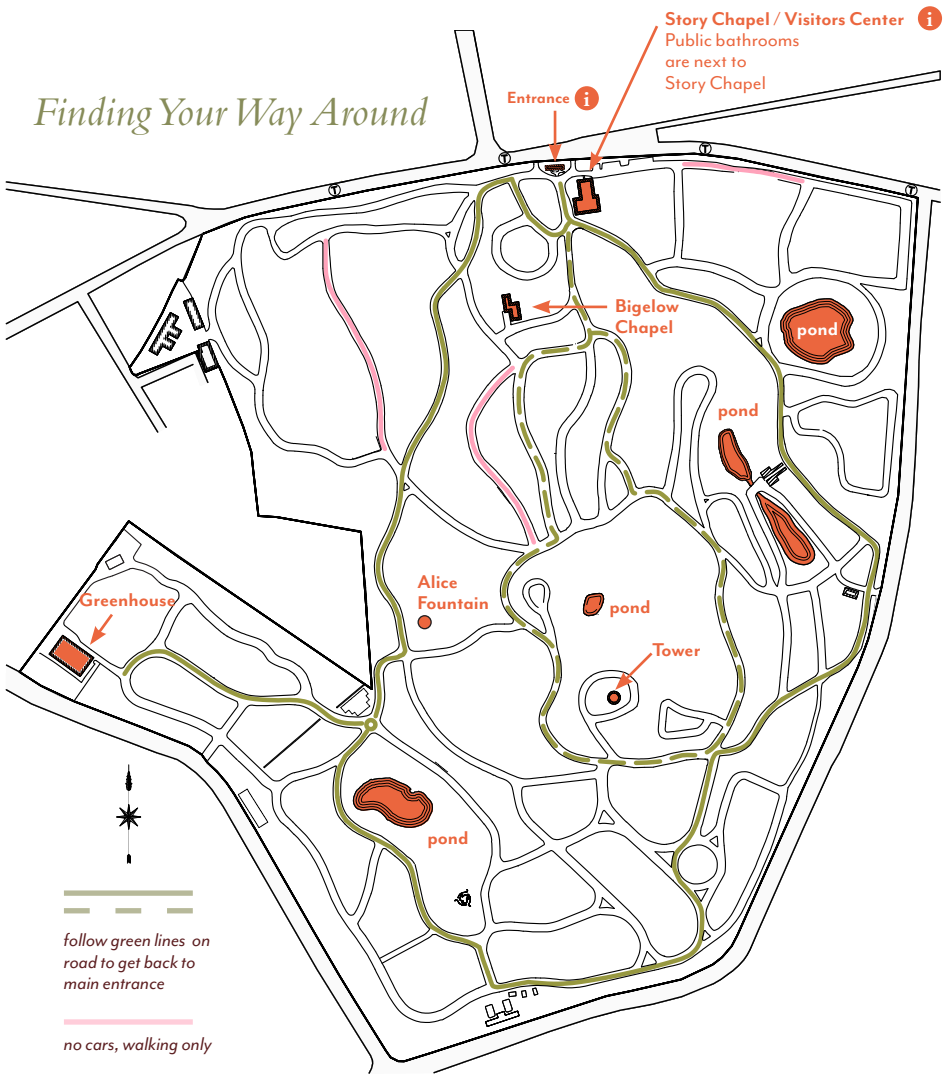
Finding Your Way Around



Remember that Mount Auburn is a place of reflection. Be respectful. Enjoy our plants, but leave them here. And please don't climb on our monuments – many are fragile.

Mount Auburn Cemetery is a unique refuge within the urban communities of Watertown and Cambridge. Its 175 acres include significant works of art and architecture, a beautiful collection of plants and trees, and the graves of many notable individuals. The Friends of Mount Auburn helps preserve and teach people about this special place.

Signs of the Seasons: ***Fall***

for ages 2-6

Friends of Mount Auburn

Fall BINGO

As September gives way to October and November, Mount Auburn's trees turn fiery colors. Oaks drop their acorns, which squirrels stash for the long winter ahead. Migrating birds pass through on their way south, and some animals prepare cozy winter burrows.

How many signs of the season can you find?

Visit www.mountauburn.org/Families for more information and additional activities.

ACORN	PINECONE	CHIPMUNK	IRON FENCE	FLYING BIRD
